

# Substance Use Policy Kingsland NS

## **Introduction**

The central objective of the Kingsland NS Substance Abuse Policy is the welfare, care and protection of every student, in line with the Education Act 1998 and the Education (Welfare) Act 2000.

Kingsland NS acknowledges that the school has an important role in terms of the education of children in relation to alcohol, tobacco, solvents and drugs. This policy reflects our school ethos and seeks to promote self-reliance, knowledge and skills to enable individuals within our school community to make healthy and safe choices. The school will endeavour to work closely with parents/guardians in the implementation of this policy to ensure the health and safety of each child.

Kingsland NS recognises the serious danger that drug misuse can have on the individual and on the school community. The main objectives of this policy are to inform the school community on substance misuse and the strategies in place to empower the staff, parents and children.

This policy was developed in consultation with the staff, Board of Management (BOM) and Parents Association of Kingsland NS in accordance with recommendations by the Department of Education and the Health Service Executive. It should be read in conjunction with the school Code of Behaviour and Administration of Medication Policy, This policy is applicable to all students, staff, parents and users of the school building during school time and during all school related activities.

- The National Drugs strategy (interim) 2009-2016 requires every school to have a substance use policy in place.
- Action 21 of the National Drugs Strategy (interim)2009-2016 mandates the Department of Education and Skills to monitor the implementation of substance use policies in schools through the whole school evaluation process as operated by the Inspectorate.
